1. Getting Started

Tascal Pro Malaysia is a cloud-based practice management platform designed exclusively for Malaysian accounting firms.

1.1 Logging In (Firm Staff)

- 1 Visit the Platform**
Open your browser and go to tascal-pro-malaysia.vercel.app
- 2 Enter Credentials**
Enter your work email address and password, then click "Sign In".
- 3 Access Dashboard**
You will be taken directly to your firm's Dashboard.

■ **TIP** Bookmark the login page for quick access. Use Chrome, Safari, or Edge for the best experience.

1.2 Logging In (Client Portal)

Your clients access a separate, dedicated Client Portal at </portal/login>. They enter the email and password you set up for them.

2. Dashboard Overview

The Dashboard is your firm's command centre. It gives you an at-a-glance view of everything happening across your practice.

Metric	Description
Total Clients	Total number of active client companies in your firm.
Active Matters	Matters currently in Pending or In-Progress status.
Pending Documents	Document requests awaiting upload from clients.
Overdue Tasks	Matters and tasks that have passed their deadline.
Recent Activity	A live feed of the latest actions across all clients.
Quick Actions	One-click shortcuts: Add Client, New Matter, Upload Document, Send Message.

3. Managing Clients

The Clients section is the foundation of Tascal Pro. Every matter, document, message, and invoice is linked to a client record.

3.1 Adding a New Client

1

Go to Clients

Click "Clients" in the left sidebar navigation.

2

Click Add Client

Click the "+ Add Client" button in the top right corner.

3

Fill in Details

Enter Company Name, SSM No., Business Type, Industry, PIC Name, PIC Email, PIC WhatsApp, and Notes.

4

Save

Click "Save Client". The new client appears immediately in your list.

■ **TIP** PIC = Person In Charge. Their WhatsApp number will be used for automated notifications.

3.2 Viewing & Filtering Clients

Click "View →" on any client row to open their full profile with all matters, documents, messages, and invoices. Use filter buttons (All, Active, Pending, Inactive) and the search bar.

4. Matter Management

A "Matter" is any engagement or project for a client — annual audit, tax return, SST filing, company secretarial work, etc.

4.1 Matter Status Workflow

Status	Meaning
Pending	Matter created, not yet started.
Waiting Documents	Waiting for client to upload required documents.
In Progress	Actively being worked on by your team.
Review	Completed work is under internal review.
Waiting Approval	Sent to client for approval or signature.
Completed	Matter fully closed and filed.
Cancelled	Matter cancelled by client or firm.

5. Document Management

Tascal Pro's Document Hub replaces email and WhatsApp for all file sharing between your firm and your clients. All documents are stored securely in the cloud.

■ **TIP** Documents uploaded by your firm are automatically visible to the client in their portal.

5.1 Document Categories

Category	Purpose
General	Miscellaneous documents not in other categories.
Invoice	Billing documents issued to clients.
Receipt	Payment receipts and confirmations.
Bank Statement	Client bank statements for accounting purposes.
Tax Document	Tax returns, assessments, and related filings.
Audit Report	Completed audit reports and working papers.
Company Document	SSM forms, resolutions, constitutions.
Payroll	Payroll reports and salary documentation.
Signed Document	Executed agreements and signed forms.

6. Messaging

Tascal Pro includes a secure, professional messaging system between your firm and your clients. All conversations are stored and accessible at any time.

■ **TIP** Messages are two-way. Clients can reply from their Client Portal. Unread messages are marked with a blue dot.

7. Invoices & Payments

Tascal Pro includes a professional invoicing system with SST 8% auto-calculation, Stripe online payment collection, and MyInvois e-invoicing readiness.

7.1 SST Calculation

When SST is enabled: SST Rate = 8% | SST Amount = Subtotal × 0.08 | Total = Subtotal + SST Amount

7.2 MyInvois Status

Status	Meaning
Draft	Invoice created but not yet submitted to LHDN.
Submitted	Submitted to LHDN MyInvois portal (pending validation).
Validated	Successfully validated by LHDN.
Rejected	Rejected by LHDN — requires correction and resubmission.

■ **NOTE** Full LHDN MyInvois API integration is currently in development. Available in a future update.

8. Client Portal

The Client Portal is a separate, secure login area for your clients. They can see their matters, upload documents, exchange messages, and pay invoices — without WhatsApp.

8.1 What Clients Can See and Do

Feature	Description
Overview	Summary of active matters, pending document requests, messages, and unpaid invoices.
My Matters	Status of all their matters — they can see progress but cannot edit.
Documents	Upload requested documents. Download documents shared by your firm.
Messages	Send and receive messages directly with your team.
Invoices	View all invoices, see SST breakdown, and pay online via Stripe.
Ask My Accountant	Submit questions anytime. AI drafts; accountant reviews and sends.

9. Settings

9.1 Firm Profile

Update your firm's name, SSM registration number, MIA membership number, address, phone, email, and logo.

9.2 Team Members — Roles

Role	Access Level
Owner	Full access to all features and settings.
Manager	Can manage clients, matters, and documents. Cannot change billing.
Staff	Can view and update assigned clients and matters.

9.3 Billing & Plan

View your current subscription plan, next billing date, and payment method. Download past invoices. Upgrade or change your plan here.

9.4 Notifications

Customise notifications: new client message, document uploaded, matter overdue, invoice paid, invitation accepted, weekly summary (every Monday).
